

SB 153 (Wilk) Needs Your Support

If you would like to support the CHC sponsored legislation to authorize the State of California to take the final legislative step to open the Golden State up to hemp cultivation, please follow the steps below.

1. Place the support letter (sample letter below) on letterhead and save a pdf copy.
2. Go to <https://calegislation.lc.ca.gov/Advocates/faces/index.xhtml> to sign in or create an account on the state portal. Select SB - 153 and Session Type "Regular." Click on the Search button. Select the appropriate Committee and "Support". Select "Submit a letter instead" checkbox to upload a letter. Check I'm not a robot box. Select Submit Letter to send the letter.

RE: SB 153 (Wilk)—SUPPORT

Dear Senator Wilk:

I am pleased to make you aware of our strong support for SB 153 (Wilk), which will conform the state's laws regulating the cultivation and testing of industrial hemp to the new requirements established under the Federal Farm Bill of 2018.

With the passage of the 2018 Federal Farm Bill and its establishment of hemp as a viable and recognized agricultural commodity, large scale in state cultivation may now become a reality. SB 153 ensures California's regulatory framework is consistent with the standards dictated by the U.S. Department of Agriculture which is necessary to allow California farmers to enter the industrial hemp market and meet the growing demands of U.S. and California hemp product companies.

For this reason, we strongly support for SB 153 (Wilk).

Sincerely,

 Name and Title
